

NIKE PH-75/78 Meeting, Willistown Township, Chester County, PA - 01/09/08

Robert Lausch to: Charlene Creamer

12/17/2007 03:06 PM

Cc: Kathleen Anderson

Hi Charlene -

I just got a call from Gloria Markovci (410-962-5184) from the Army Corps Baltimore District who is overseeing investigations at this site. I attended a March 2007 meeting for this site when you were acting boss. Without checking my notes, which I would need to first locate, I recall that ongoing activities included completion of the RI/FS in support of future plans to transfer property from U.S. Government (my recollection is that the National Park Service owns the remaining portion of the NIKE control site) to private ownership. The Corps wants to schedule a follow-up meeting on January 9, 2008 at the Willistown Township Building. This is the first time I've heard anything since March so I suppose it's time for an update. This would be a morning meeting with actual time TBD. Ms. Markovci will be sending an e-mail invitation. I gave her both of our e-mail addresses. I think one or both of us should attend. Thanks!

- Drew

Kathleen: PADEP is taking the lead regulatory role but we should probably keep our eyes on this one. It will most likely become a federal-to-private property transfer; if so, then the U.S. Government will need to comply with the appropriate statute (CERCLA Section 120) and implementing regulations (40 CFR Part 373), as well as any other established guidance/directives/policies.
